

## WORKSHOP IMMUNO-T

JANUARY 10TH 2024

IMMUNOSCIENCE ACADEMY

Prof. Dr. Tessa Kerre

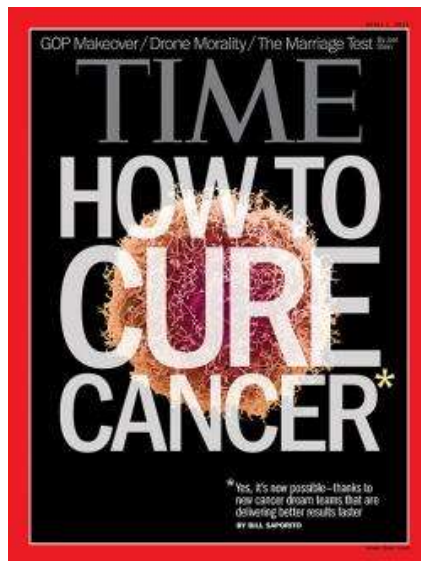

Micros & question  
cards available  
during **workshops**

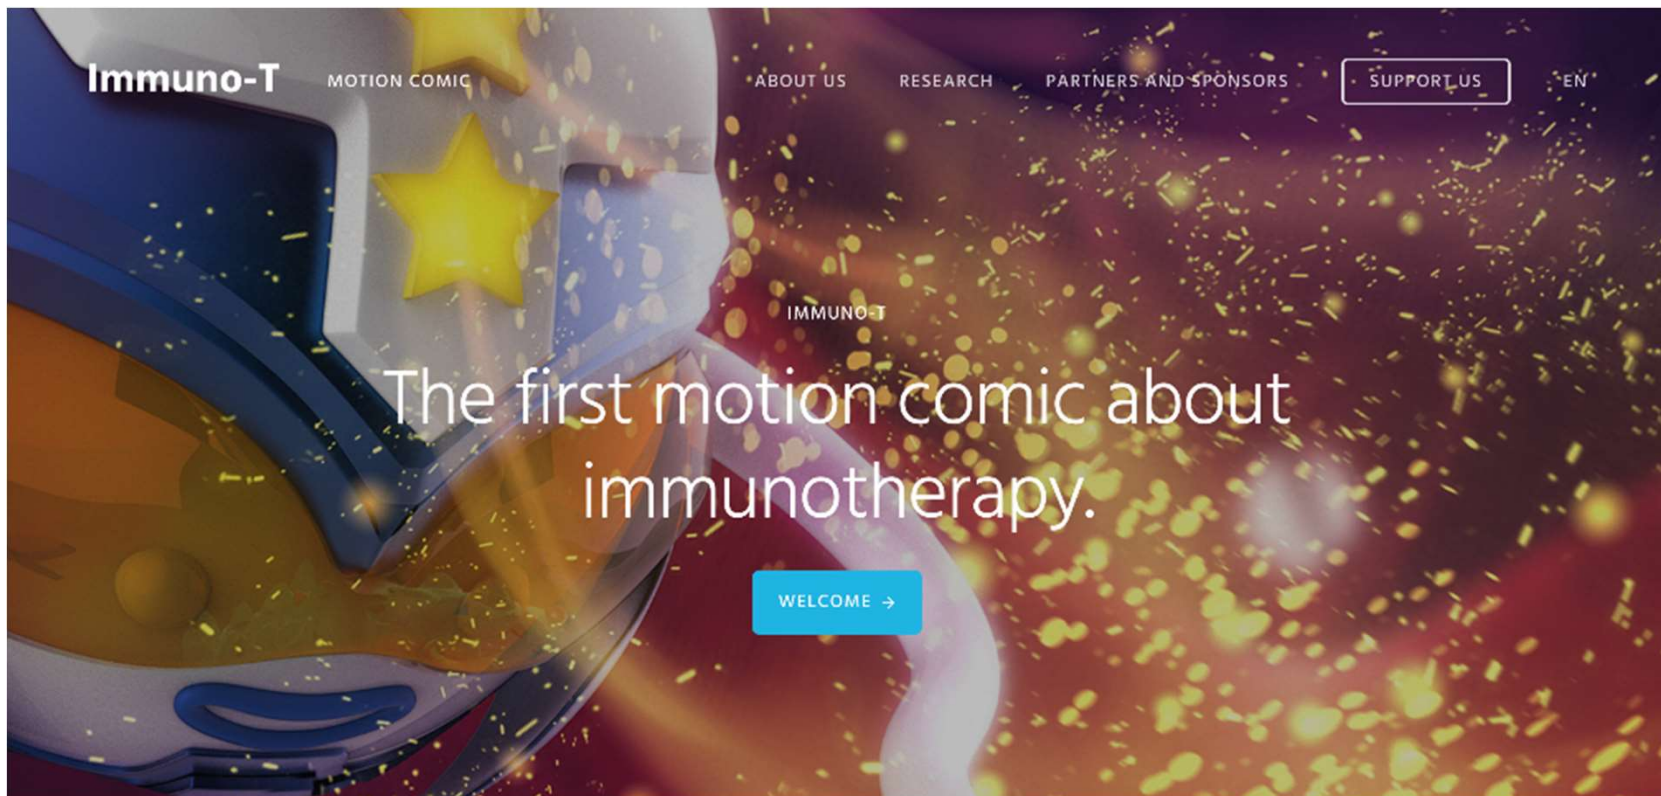

IMMUNO-T  
INFORMING PATIENTS  
AND THEIR  
CAREGIVERS ON  
IMMUNOTHERAPY

# SHARED DECISION MAKING: IMMUNOTHERAPY, A SPECIAL CASE

- High complexity - low basic knowledge on immunotherapy in patients
- Knowledge in caregivers lower than with other (cancer) treatments
- General knowledge biased: immunotherapy is the best!

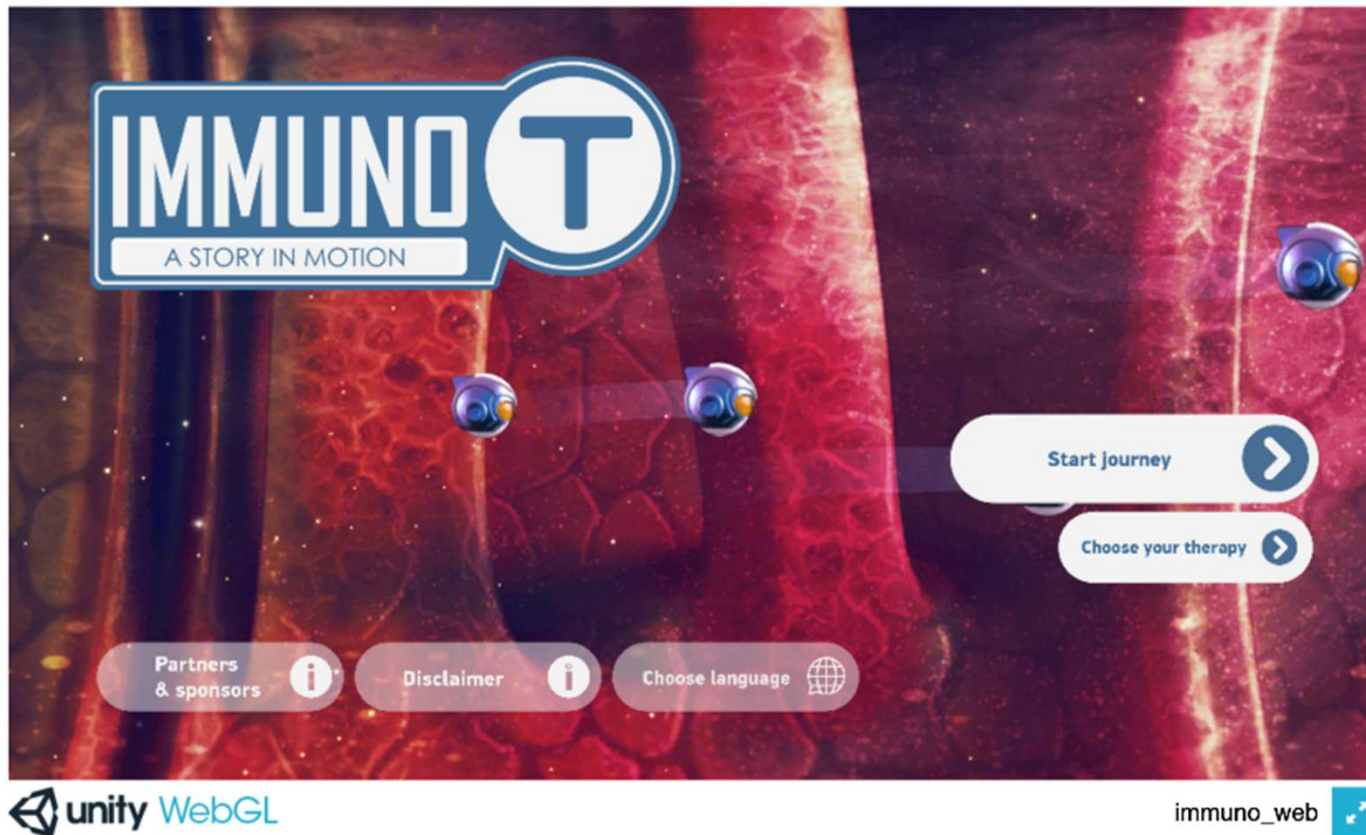

# IMMUNO-T

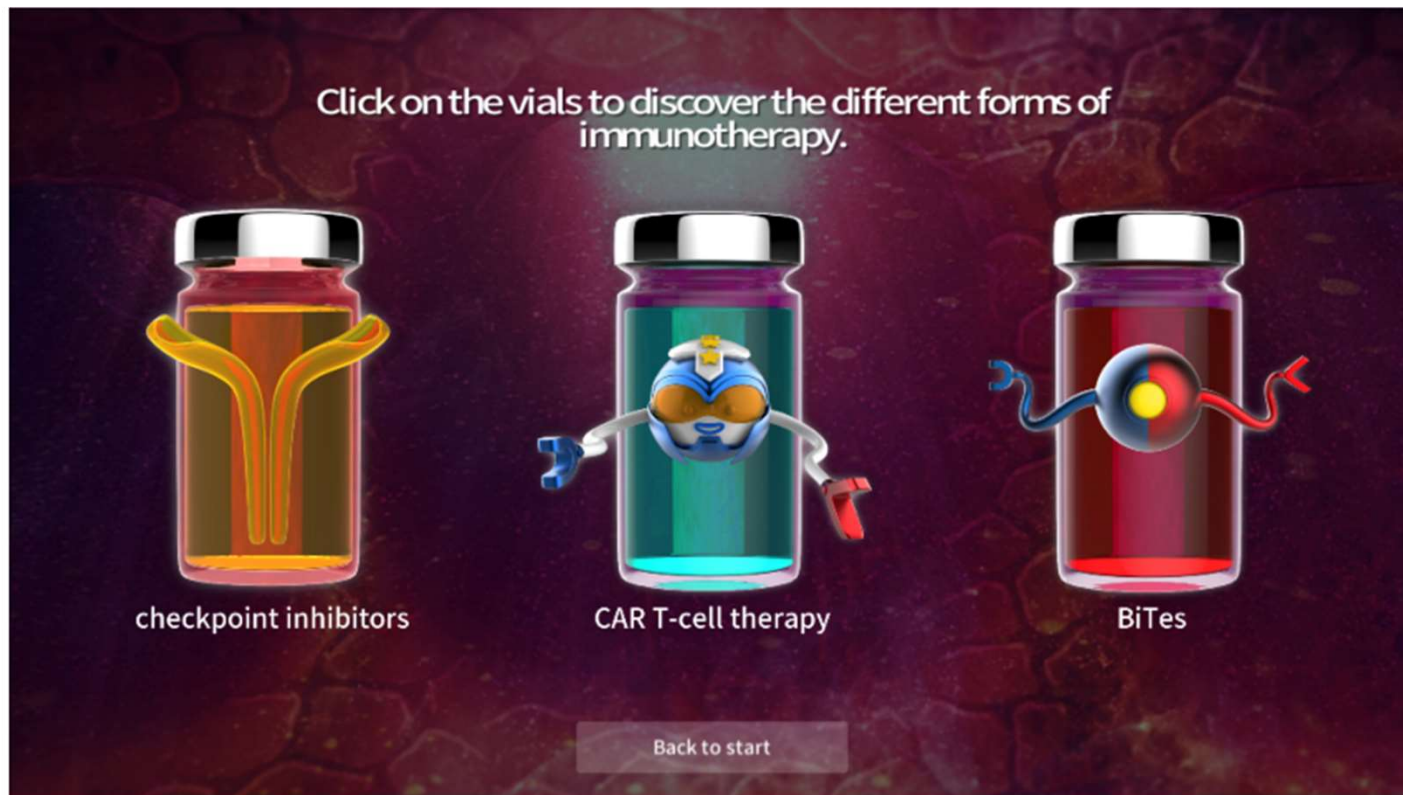

# IMMUNO-T

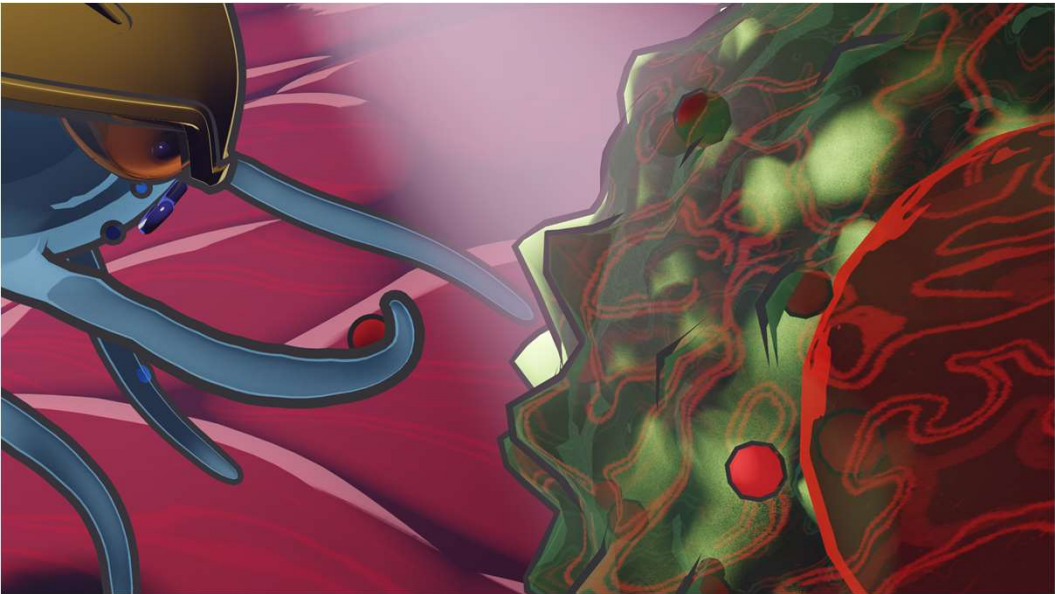

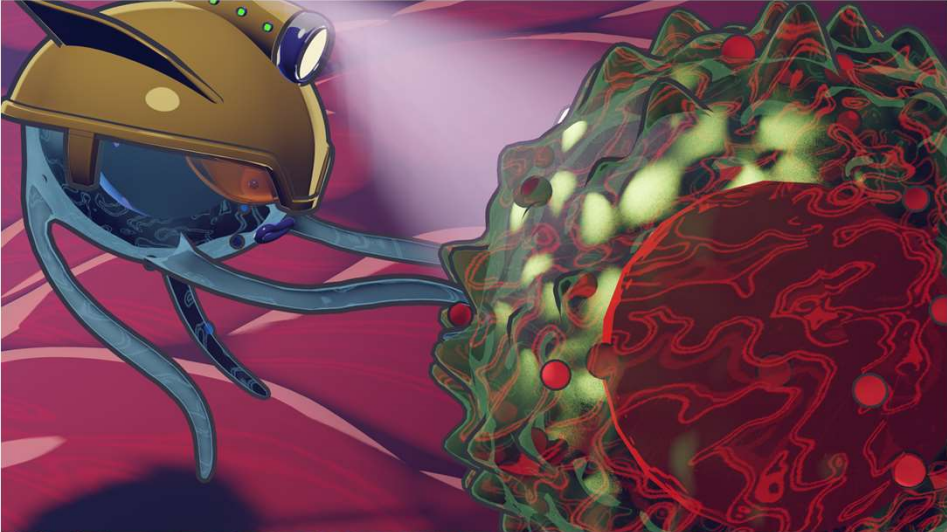

# IMMUNO-T

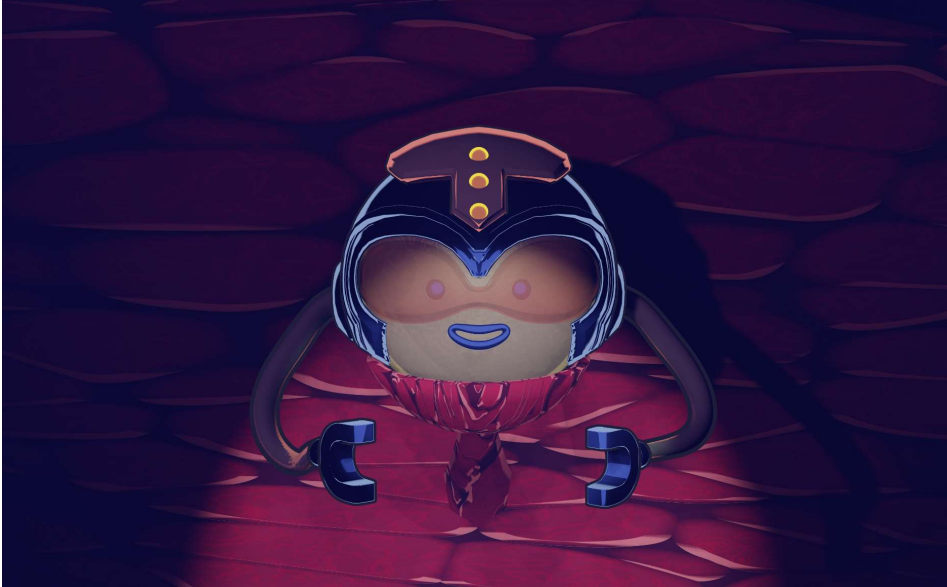

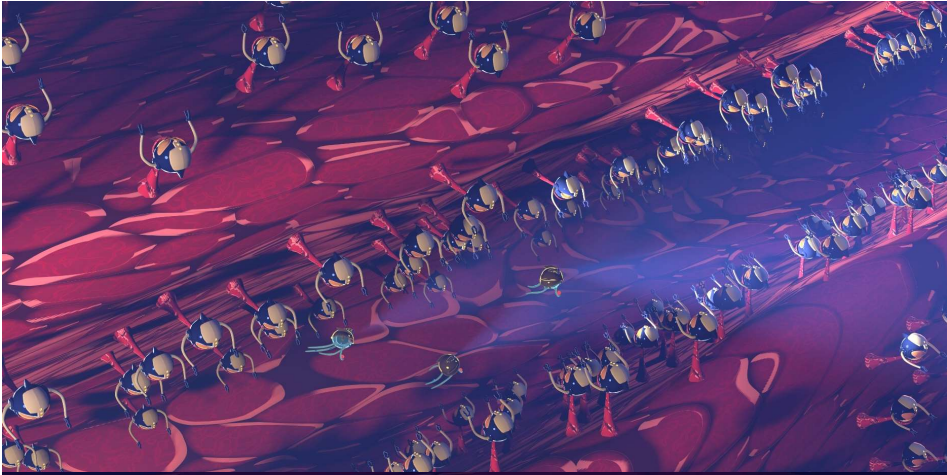

# IMMUNO-T

# IMMUNO-T

# IMMUNO-T

- An **information** tool
- A **communication** tool
  - to create awareness
  - to visualize the invisible
  - to increase literacy on immunotherapy
  - to improve knowledge (research), and create a visual language for doctors and health workers to use and improve communication
- Currently **underused** and **suboptimally** used
  - used locally (UZGent), and in some other hospitals: how to improve?

# IMMUNO-T

- Currently **underused** and **suboptimally** used: how to improve? → qualitative research (in-depth interviews and focus groups)
  - What do patients think?
  - What do caregivers think?
- Integration of Immuno-T in care path
- Personalised information track within care path
- Tool to explain how to use Immuno-T

# IMMUNO-T

## What do you think?

- Who was familiar with Immuno-T prior to this presentation?
- Who would recommend Immuno-T to their patients?
- What tools are used in your hospital to explain immunotherapy?
  
- Do you have any feedback to help improve Immuno-T?
  - [tessa.kerre@ugent.be](mailto:tessa.kerre@ugent.be), google form on website
  
- What are your suggestions for increasing awareness on Immuno-T?
- What are your suggestions to integrate Immuno-T in the carepath?
